Subject: Re: CZARA

Thanks, I'm on Ex. 6 - Personal Privacy starting Aug 13, so hopefully I can help before then..

Thanks Rob for reaching out. Yes, we'll be tapping NMFS shortly. Alan may need some tech. assistance on some of his pieces sooner rather than later but I was hoping to wait until we have some rough drafts ready for review to get NMFS input. Alan may have told you but the industry folks have poked some holes at the coho listing docs so we'll need your support in developing our response to those comments and well as some others the speak to the science surrounding specific issues.

I'm Ex. 6 - Personal Privacy right now but when I'm back next week I can share our draft summary of the public comments received so you can see what we're working with and where NMFS may be able to plug in best.

Allison,

After talking with Kim and Alan, I'm writing to see if there's any way I can help with the CZARA process - response to comments or whatever needs attention from the NOAA Fisheries perspective.

I'm aiming to finish the draft of the proposed recovery plan for OC coho in September, so I'm busy with that, but the CZARA issues are directly linked to OC coho habitat, so I'm interested in contributing in any way I can...

Please let me know what I can do.
